WHEELCHAIRS
...YOUR CHAIR IS HERE!

Quality engineered for comfort, mobility and safety.

Nissin engineered the Trav with the help from researchers at a major rehabilitation center in Japan with the needs and desires of their clients in mind.

-The rear wheels are installed inside the chairs frame to reduce its width, increase maneuverability, and yet provide the comfort of a full size wheelchair. They have a step break for the convenience of caregivers.

-The thigh belt ensures balance seating.

-The flip-up armrest facilitates smoother transfers from the chair's seat.

The Trav allows you to enjoy more mobility while feeling safe and secure.
