17.5in

Camber Angle  
0,2, & 4 Degrees

Chair Weight  
18 lbs

# TECHNICAL SPECIFICATIONS

Two piece ultra-lightweight frame. 1" aluminum tubing.

**Caster housing angle adjustment:** Accurate straight line performance and smooth turning performance can be easily achieved. You can easily set the caster angle when changing the seat angle. Adjust the position of the casters. When changing caster sizes there will be no interference between the footplate and casters.

The extremely thick 2" wide axle tube is the Colours trademark for this chair. It reliably transmits the force of pushing the handrim to the ground. This axle tube firmly connects the left and right frames even when turning with light operation.

※Growth Kit Includes :  
Seat Sling, Backrest Tube, Axle Tube w/ clamps,  
Stabilizer Bar (★Marked Parts only)  
Backrest Upholstery and Footrest Loop

The growth kit is available for growing the chair seat width or growing all parts of the chair. Includes back upholstery, seat sling, backrest frame, axle tube, footrest/footplate, and cross tube.
